

Is your SpeechExec software compatible with MS Windows 10?

Overview of SpeechExecWindows 10 compatibility

Compatible

- Version 8.8: compatible with Windows 10 (Software end of life, December 2017)
- Version 10.x: compatible with Windows 10

Not compatible

- Version 5 (dongle): not compatible (software end of service, September 2013)
- Version 6 (dongle): not compatible (Software end of service, September 2013)
- Version 7: not compatible (Software end of service, November 2015)
- Version 8 – 8.7: not compatible (Software end of service, December 2017)

In some cases, unsupported versions (8.7 and older) may work for a while after a Windows 10 update, but will cease working at some point due to continuous Windows updates in the background.

Options if you are using an unsupported software version
